with the Prompt Action of
Governor Sayers.

Wm. Wright and Taylor, two members of the State Rangers, arrived here this morning from Cotulla and immediately proceeded to Captain Rogers for duty.

The officers of Orange generally are pleased with the prompt action of Governor Sayers in responding to the request for assistance and for his offer of the assistance of each for the capture and punishment of the parties implicated in the riot.

On every hand are heard remarks from the good citizens in praise of the governor.

The friends of D. R. Emerson, ex-sheriff of this county, regardless of political creeds, are all pushing his claims for the appointment of superior of census for this (Seventh) district.

Mr. Emerson is deservedly a very popular young man, pre-eminently qualified for the position, and every one here would be delighted with his appointment.

The animal was followed up and killed. The girl was being taken in the

COLORED TEXAS REPUBLICANS

GETTING ALL THE POLITICAL PIE
TO WHICH THEY ARE ENTITLED.

So Says William M. McDonald, a Well
Known Colored Republican—Mc-
Kinley and Reed for President.

Wm. M. McDonald of Terrell, familiarly known as "Goose Neck Bill," came up yesterday morning from Rockport and spent the day in the city with his friends.

He claims that his several days' stay in Rockport was simply of a recreative nature and had no political significance whatever.

When questioned concerning the correspondence between C. N. Love and himself, which appeared in The Post of the 13th instant, he said: "He knew nothing of it and hadn't seen the paper containing it."

When told the substance of the answer made by Love to his letter, he manifested some surprise that Love had published a private letter sent him.

"I don't know of any other letter sent him," said McDonald, "except a private letter. It may be that while sending out circular letters to members of the State executive committee to get an expression from them relative to the recommendation of the stenographer union, he sent him one, as his name appears on the list as secretary of the committee. How I managed to be there, however, I am unable to say. I have never written Love a letter asking his advice or seeking information respecting the supervisoryship."

He continued: "The negro republicans of Texas have no kick due them whatever. They have been well cared for as far as C. M. Ferguson, Webster Wilson, Mark Rodgers, Henry Clay Gray and Jackson, all have lucrative positions. H. C. Ferguson and myself are the only colored republicans entitled to any kick. The real truth of the matter is that the negro leaders, so-called, are the cause of others not being provided for and the fight now being made against Messrs. Green, Hawley and Grant for not getting more places for negroes in the supervisoryship. Each of them had his negro friends and enemies, and they were all together; they would concede nothing, and being obstinate, as they were, while man steps in and gets the fat places, these negroes are not to be blamed for certain negroes not getting Federal jobs."

"Marshall John Grant says I have lost my force in the party as a leader, when he accepted the position to 'vote' a pistol, then he blighted his future possibilities as a party leader."

"Will Mr. Green be in the race for State chairman or National committeeman?" "I think," said McDonald, "that the recommendation of Mr. McKinley means democratic victory and he will likely be nominated if the party has expansion in its platform. But if the party addresses anti-expansion Mr. Reed will be the nominee and in my opinion will be elected."

McKinley's blunders have been indeed numerous and of the gravest and most scandalous nature, and his election is not at all probable should he get the nomination.

"Goose Neck Bill" left last night for Sabine Pass and will return to the city perhaps on Wednesday.

VICTORIA LOCALS.
Moonlight Excursions to Port Lavaca Are Very Popular.

Victoria, Texas, August 19.—The moonlight excursion to Port Lavaca last night from all points on the line attracted over 200 from Victoria, but the crowd from other points was rather small.

Foreman Morgan of the Sunset paint gang is here repairing all the railroad property.

W. J. Jeffords was installed yesterday as agent at Beaumont, vice C. R. Davant, who has resigned to accept a position in the postoffice at Beaumont.

There is to be a moonlight excursion to Port Lavaca from Cuero and Victoria next Tuesday night; this was to have been given Thursday night, but was postponed so as not to interfere with the ice cream festival given by the German Catholics in the public square; the latter was quite a success.

The commissioners court has appointed J. H. Haley and John Hammond as guards over the convicts of this county, and the district attorney has agreed to insure more satisfactory results than have heretofore been attained by working the convicts on the county roads.

The school examining board, consisting of Prof. Barton, LeFevre and Allen, met yesterday and examined a number of applicants for certificates.

THE FIRE RECORD.

Were Burned at Denton.

SERIOUS SHOOTING AFFRAY.
Fight Between a Deputy Sheriff and
Hillbill Distillers.

Macon, Ga., August 20.—A special from Hamilton, Ga., says:

News reached here of a shooting affray at Lake Butler, Ga., last night, resulting in the death of one and serious injury of two others.

Deputy Sheriff Kite attempted to arrest a party of illicit distillers known as the "Riders," who were on their way to the city. Two brothers began firing on the deputy. Shots took effect in the sheriff's back, causing his death this morning. Deputy Sheriff Kite returned the fire and wounded each of them, but not fatally. The three Richards boys were placed in jail at Starke to await preliminary trial.

Case of Smallpox at Taylor.
Taylor, Texas, August 19.—A negro man came in from Bartlett yesterday, and being sick went to a doctor, who pronounced it a case of smallpox. Mayor Moody being informed telephoned to Hearns for State Health Officer Blunt, who arrived here at 5 o'clock yesterday evening, and as soon as he saw the negro pronounced it smallpox. The negro had taken up his abode in a box car near the International and Great Northern freight depot. The car was run to an out-of-town switch with the patient in it, and a nurse and a guard employed.

Mayor Moody has turned the case over to the county authorities, and county commissioner, John F. Black, will have a tent and camp fixed up in some isolated place.

There is no uneasiness of any consequence felt here. Dr. Blunt says that smallpox is not nearly so contagious as people generally think. He does not even believe in the contagiousness of the disease, who caught hold of the negro while walking around in the yard, is in any serious danger of catching the disease. The patient is from Sedalia, Mo., where he had been sick in a hospital.

McKinley Clerks Organize.
McKinley, Texas, August 19.—An important meeting of the retail clerks of the city was held last night which was addressed by State Organizer E. B. Thompson of Dallas.

The charter having arrived the officers recently elected were installed. The union will be known as McKinley Union No. 287, State Clerks' National Protective Association.

The clerks of the city are taking a great deal of interest in the union which will doubtless prove of much benefit to them.

Pelzer is in jail here. He was raised in this county, about 45 years old, has a nice family and is well connected. He served as deputy sheriff for several years and was an efficient officer.

Cotton Marketed Rapidly.
Carmine, Texas, August 19.—Today's cotton receipts at this place reached the 1000 mark. Cotton has been coming here lively and buyers are kept busy, but business is still dull, especially in dry goods. Producers are not so flattering as first was expected, but it is estimated that the area-crop will make both ends meet.

Yoakum Natatorium Leased.

ITEMS FROM THE ISLAND CITY

A GROWING SENTIMENT IN FAVOR
OF ELECTING ALL OFFICIALS.

Premises of a Milk Inspection Ordinance that is to be Enforced—An
Opium Den Raided.

Galveston, Texas, August 20.—The cheap political methods of the city council have driven a large number of people to expose the sentiment of having the charter amended so that the various officers the aldermen are now quibbling over can be elected by the people. This is already done in nearly every other Texas municipality. Galveston stands alone in this as well as in her farcical method of electing aldermen. But Galveston politics is peculiar in many respects.

There have been deadlocks in the council before, but none that were so lasting as the present one. The majority aldermen and the mayor are much further apart now than they were two months ago. Bad feeling has crept in, and obstinacy has taken the place of reason. Propositions for an adjustment of differences that doubtless would have been entertained thirty days ago are now thrust aside and no thought given to them.

In the meantime the people have settled down to the conviction that neither side wants to do anything, and have begun to freely condemn both factions. Several of the place hunters have become disgusted with the delay and have dropped out and are seeking other employment.

The waterworks board also seems to be playing a little politics, and all the departments are disorganized.

MILK INSPECTION.
The city has promise of a milk inspection bill. About five years ago an ordinance providing for the inspection of all milk sold within the city limits was introduced, but it never got beyond a certain pigeon hole, and there it has remained ever since. Now the ordinance and dust covered form is to be dragged forth and enacted into a local law.

This assurance comes from one of the caucus seven aldermen, and of course, if they are united the ordinance can be passed in a whoop. A regulation of this kind is very much needed here, as there have been complaints of impure milk on the market.

OPIMUM DEN RAIDED.
Tomorrow, before Recorder Allen, the police will undertake to convict five Chinamen of keeping a "disorderly house." The officers raided a house on Tremont street last night, and arrested Sam Wah, Charles Sing, Joe Sam, Tom Ling and Roy Del. The celestials were engaged in the quiet pastime of smoking opium. Two smoking outfits, consisting of some "hop," a number of chop sticks and some elaborate pipes were seized and taken to the station.

NOTES AND PERSONALS.
Mayor Hicks and Street Commissioner Scott are among the many visitors here today.

Chas. H. Pescay and wife of Houston were in the island city today. The guests of Mrs. Pescay's brother, Mr. Joe Wright.

Messrs. L. Lipshitz, a well-known merchant; Gus Taylor, receiver of the defunct banks, and Milton Harpool, collector of Smith county, were here from Taylor, Texas. They report hot and dry weather up there.
